Message from Admissions Office

It is a source of pleasure for us to welcome you to the admission office of GC University Lahore. GCU is an academic institution, with 153 years of glorious history along with hundreds of thousands of alumni of various nationalities, who attained the heights of their professional careers. Today many of them are world renowned in the field of science, economics, governance, sports, civil services and judiciary. GCU has also been the alma mater of many presidents and prime ministers of Pakistan and other distinguished personalities as well as two Nobel Laureates – Dr. Abdul Salam and Dr. Har Gobind Khurana. Owing to such a spectacular academic history, in Pakistan, GCU has always been the first choice of brilliant students.

Getting admission to GCU is not merely getting an opportunity to attend an academic program but to become a part of these decades' long traditions and values, cherished by every Ravian. The philosophy of GCU for grooming of students has three major components; imparting knowledge related to academic program; strengthening relevant skills; and developing personality attributes that can help a student to become a successful professional in the prevailing cut-throat competitive world of the 21st century. Along with academics, co-curricular and extra-curricular opportunities available for students at GCU are second to none in Pakistan that enrich their personal exposure and expand their intellectual horizon. The broad network of current and old Ravians in Pakistan and across the globe provides students a competitive advantage; that helps them to excel in their career.

Admission to GCU is very competitive as GCU has been on top of the list in respect to admission merit (marks) and applicants to seat ratio. Such a competitive admission process based on merit ensures the admission of the best students. The quality of class fellows and the hard work they put in urges each student only to work hard and go for an extra mile to meet the competition. GCU possesses very competitive environment, but at the same time GCU tries to develop the collaborative environment and team work through appropriate teaching methodology and performance evaluation system.

After attaining the status of a university, GCU is geared towards creation of knowledge through research along with its previous role of imparting the knowledge. GCU has very competent and experienced faculty, who are always keen for their own professional growth as well as wellbeing of students by providing all-out support.

Admission Office keeps on making utmost effort to ensure smooth and efficient admission based on purely merit principle. Admission Office is dedicated to extend all possible help to the potential candidates and we welcome you to contact us if you have any query regarding admission process.

We look forward to serving you in an exclusive way.

Dr. Shaukat Ali
